

NANOTECHNOLOGY

VOLUME 21 NUMBER 48 3 DECEMBER 2010

iopscience.org/nano

Featured article

Highly ordered porous alumina with tailor-made pore structures fabricated by pulse anodization

W Lee and J-C Kim

Topical review

(Non-targeted) radioactive/fluorescent nanoparticles and their potential in combined pre- and intraoperative imaging during sentinel lymph node resection

T Buckle, P T K Chin and F W B van Leeuwen
